

# The Right Grind for Every Taste!

## Conical, Disk Burr & Blade Grinders

*Capresso*

### Infinity Conical Burr

Model #565

Created with a flair for timeless design. The Infinity Conical Burr Grinder features commercial grade conical steel burrs in an elegant design worthy of displaying on the countertop. Remarkably user friendly, the Infinity is designed for the home with the same burrs found in automatic coffee centers. The burrs preserve maximum aroma and grind precisely from Turkish fine to Percolator coarse in 16 grind settings. This unique grinder maximizes flavor and aroma by operating with less friction and heat via a gear reduction motor grinding slower than most other burr grinders.

### Stainless Steel Disk Burr

Model #585

The new Stainless Steel Disk Burr Grinder, with handsome brushed stainless steel housing, is the latest creation in our line of burr grinders that offer consumers precision grinding and great design all in one. The new grinder features an innovative vertical design, which ensures that no ground coffee remains inside the grinder after use, minimizes static in the ground coffee and prevents clogging inside of the machine. Another new user-friendly feature is the insulated grinder lid that makes this the lowest noise grinder in its class.

### Black Disk Burr

Model #580

The new Black Disk Burr Grinder, in sturdy ABS housing, is the latest creation in our line of burr grinders that offer consumers precision grinding and great design all in one. The new grinder features an innovative vertical design, which ensures that no ground coffee remains inside the grinder after use, minimizes static in the ground coffee and prevents clogging inside of the machine. Another new user-friendly feature is the insulated grinder lid that makes this the lowest noise grinder in its class.

### Stainless Steel Blade

Model #503

A new look! Our popular "Cool Grind" Coffee & Spice Grinder offers a stylishly curved silhouette and elegant stainless steel housing with black accents. The addition of stainless steel housing means "Cool Grind" is cool-to-the-touch, a practical plus for a blade grinder engineered to minimize heat build-up to preserve the coffee's rich aroma. Grinds coffee and spices.
